## SUPERB PICTURE QUALITY

UHD Signage | UH5F Series

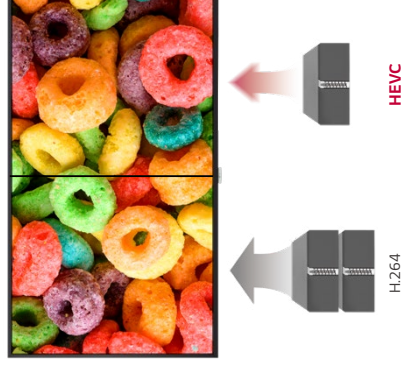

### ULTRA HD Resolution

With the resolution that is 4 times higher than FHD, it makes the color and details of the contents more vivid and realistic. In addition, the wide viewing angle applied with LG IPS Panel, provides clear contents with no distortion.

### High Efficiency Video Coding

The UH5F series supports HEVC\* which efficiently compresses/decompresses high-capacity UHD contents, playing ultra-high quality videos with half the network traffic when compared to the existing H.264 codec.

\* HEVC: High Efficiency Video Coding

## SLEEK AND PRACTICAL DESIGN

UHD Signage | UH5F Series

### Narrow Bezel & Slim Depth

The UH5F series has a smaller bezel size and thickness, which saves space and enables easy installation. In addition, it increases the immersive experience from the screen and provides a sophisticated design, improving the décor of the space where the product is installed.

### Detachable Logo and Built-in Speaker

The UH5F series is equipped with a new transparent logo which is well organized with surroundings. Also, its removable feature gives users flexibility for installation. Contents will be enriched with sound effects from built-in speakers, without the need for purchasing or installing external speakers.

### IP5x Certified Design

The IP5x Dust-Proof Certification ensures that the product is completely protected from dust, eliminating the risk of performance degradation.

### 30° Tilting Installation

When a display is installed at high places, it is usually tilted for the user's comfort viewing. In consideration of this, the UH5F series supports the installation with 30 degrees of tilt\*.

\*Tilt installation of up to 30 degrees face-down is supported (in conditions within 30°C temperature, 50% humidity)

### Auto Screen Rotation

The UH5F series automatically detects its orientation (landscape or portrait mode) in the initial installation step, so manual rotation set-up process isn't required. The direction of OSD and background contents will be already set when you turn on a display at first.

### Fine Adjustment

The UH5F series is equipped with a "horizontal sensor" which shows users how the device is tilt, so that it can be precisely installed.

## USER CONVENIENCE

UHD Signage | UH5F Series

### Remote Monitoring

The UH5F series can email notifications to users when there is a problem, such as tilting of the product by external impact, so users can operate the product in a safer manner as they can get the information about the problem right away.

### Simple Accessibility

Unlike previous models where various buttons have to be pressed for control, the UH5F series provides a single joystick to easily facilitate power on/off, input/setting operation, volume control, etc.

### High-Performance with webOS

Built-in Quad Core SoC can execute several tasks at once while providing smooth content playback without the need for a media player. Also LG webOS platform enhances user convenience with intuitive GUI and simple app development tools.

### Various Sensor Applications

LG webOS smart signage platform easily supports connections with external sensors such as GPIO, NFC/RFID, temperature sensors, etc. via USB plug-in. The overall cost for maintenance is reduced as there's no need to purchase additional software or media players for creating value-added solutions.

### Compatibility with AV Control System

The UH5F series has been certified Crestron Connected® for high compatibility with professional AV controls to achieve seamless integration and automated control\*, boosting business management efficiency.

\* Network-based control

### Compatibility with Video Conference System

For the optimum visual meeting, the UH5F series has certified its compatibility with Cisco System that offers powerful and integrated control\* for a smarter video conference, eliminating a waste of time for setting up the picture quality or changing input on incoming calls.

\* Using an HDMI cable connection
